27 February 1956

MEMORANDUM FOR : HQ, USAF
AFCSB-PG

Attention : Colonel R. A. Berg

SUBJECT : Unit Action Report #3

1. Reference is made to your memorandum of 17 February 1956 and the attached Unit Action Report #3. Thorough review of the subject report indicates that several of our old problems still remain with us, the main deficiency being one of shortage of personnel and materiel support functions. All the other items discussed have been or will soon be corrected.

2. In general I feel that the report is encouraging and that much progress has been made during the last few months. With regard to a solution of the personnel procurement problem, I feel that it will be about 1 April before sufficient personnel are on board to fulfill all the responsibilities of Detachment A. The exact date of correcting the aeromedical, engine, and aircraft modification deficiencies is unknown at the present time. However, it is intended to discuss each of these items at the suppliers' meeting on 29 February - 1 March. In the meantime we will continue to pursue personnel procurement action.
